PREFACE

IN offering this, the second volume of the English Foxhound Stud Book of America, to the public, the Editor wishes to thank those Masters who have kindly aided him by promptly sending in their lists, and to add that if any packs are left out it is because of their failure to forward lists in time for publication.

Although every effort has been made to verify the entries from the English Foxhound Kennel Stud Book, the chaotic condition of kennel records in this country, although nothing like as bad as at the time of publication of the first volume, is such that it has been necessary to omit certain hounds from some of the entries, as the Editor felt that it was best to admit no hounds that could not be traced to the English Foxhound Kennel Stud Book. In the case of one pack, Major Wadsworth's, where an American outcross has been used, all hounds having this blood in their veins have had their names printed in italics with the letters "H. B." after them.

A third volume of this book will be published in four or five years, and if the next period which elapses before its publication shows as great a growth in the number and quality of hounds kept in America as that which has occurred since the publication of Volume One, the Editor will feel that he has not labored in vain. Masters will greatly facilitate the compilation of this third volume if they will send in their lists regularly each November.

NOTE

HOUNDS are in all cases understood to belong to the Kennel where they are ENTERED, whether bred at home or procured from other establishments.

When hounds ALREADY ENTERED are brought into a pack by purchase or otherwise, the Kennel where they were entered should always be prefixed to their names.

Hound lists should be arranged with the entries of each year in chronological order, and each year's entry should be alphabetically arranged. The date of the year in which sire and dam are entered should also be given.
